

# Traka Touch Core

## Specifications

traka  
ASSA ABLOY

For organisations managing keys across multiple sites, seeking to improve operational efficiency, security, and compliance without the complexity or cost of enterprise systems, Traka Touch Core is the perfect answer.

The design of Traka Touch Core combines professional-grade security with affordability, making it ideal for small businesses and distributed operations. Built with many of the same trusted components as our flagship range, this solution simplifies key management, reduces installation effort, and improves accountability.

### General features

- Stores up to 20 key sets using Traka's proprietary iFob technology
- Robust triple-walled aluminium and steel construction for durability
- Self-install design for quick deployment
- Optional upgrades for network connectivity and access readers
- Built-in audit trail for compliance and security
- Compact footprint suitable for small spaces

### Standalone features

- Integrated 7" Traka Touch user interface
- Controlled access for authorised users only
- Standalone 'plug and play' system
- Import/export of reports via memory stick
- No network, PC, or external connection required

### Network features

- Full network capabilities and management through TrakaWEB
- Centralised administration and reporting
- Possible integrations with access control systems
- Browser-based interface for remote administration

### Secure access features

- Fast access via PIN code (as standard)
- Signo 20 Card Reader or Idemia Fingerprint Reader (as options)

## Specifications

Mechanical	
Height:	298.0 mm / 11.7 in
Width:	827.4 mm / 32.57 in
Depth:	166.1 mm / 6.54 in
Weight:	18.3 kg / 40.3 lbs

Material	
Cabinet material:	Aluminium / Steel
Color:	RAL7021 (black grey fine texture)
Door material:	3mm solid aluminum

Electrical	
Power supply:	Input: 100-240V AC; Output: 15V DC
Battery backup:	12V 7Ah
Power consumption:	35W max

Installation	
Mounting:	Wall-mounted; secure installation required.

Environmental	
Operating temp:	Indoor use only (-5°C to +40°C / +23°F to +104°F at 95% non-condensing RH)

Network & connectivity	
Communications:	TCP/IP with TLS 1.2 & AES-256 encryption

Conformity & standards	
<b>Product compliance</b>	
UK	UKCA
EU	CE
